EDUCATION

Technocrats Institute of Technology

B.Tech in Computer Science

CGPA: 7.61

Bhopal, Madhya Pradesh

2021- 2025

PROFILE SUMMARY

Targeting **Front End Developer** roles with an organization of high reputation with a scope of improving knowledge and further career growth.

- Having a **demonstrated** background in building scalable web applications using (**HTML, CSS & JavaScript**).
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

SKILLS

Programming: Java, JavaScript, HTML/CSS, MySQL

Tools: IntelliJ, Git, Unity, Visual Studio Code

PROJECTS

DHANWIN CLUB Sports Academy Web Application

August 2024- Current

Tools: Html, CSS, JavaScript, Node.js, Express.js, Django.

This web application (**Client based project**), developed using **HTML, CSS, JavaScript, Node.js, Express.js, and Django**, serves as the digital backbone of DHANWIN CLUB. It features an integrated payment gateway to streamline the registration and payment processes for members. As it's a team project of two members (**frontend and backend**), I'm on the **frontend** side.

Responsibilities:

- Designed and implemented user-friendly interfaces using **HTML, CSS & JavaScript** to ensure a seamless user experience.
- Ensured the application is fully **responsive** and functions optimally across various devices and screen sizes.
- Will Implement a secure payment gateway using **Instamojo Api** to facilitate **online transactions**, ensuring a smooth and reliable payment process for users.

EARLYSTEP

May 2024- July 2024

Tools: Html, CSS, JavaScript, Django.

A Health based web applications which mainly focus on providing steps to be taken on crucial situations like Snakebite, drowning, coin swallow, etc.

Responsibilities:

- Developed the front-end using **Html, CSS, JavaScript**, creating a responsive and intuitive user interface.
- Managed the backend entirely with Django, handling data storage, retrieval, and user management efficiently.
- As a frontend developer, I contributed to the group project by designing the website with **HTML, CSS, and JavaScript**.

AR/VR Based Video Player

June 2023 – July 2023

Tools: Vuforia, Unity

Created an AR/VR app with **Unity** and **Vuforia**. The app will improve real-world experiences by superimposing 3D content over photos (markers) obtained with the user's smartphone camera.

ACADEMIC ACHEIVEMENTS

- Earned a certification in Front End Development, demonstrating proficiency in **Html, CSS & JavaScript** technologies.
- Earned a certification in Java and MySQL.
- Earned a certification in Java with DSA by Apna College.
